

## AT930000 TFRAME

Brochure revision 0.1, September 2022

Twinning Frame

AT93000-TFRAME is a Multilane mechanical enclosure, referred to as the “ATE high-speed twinning frame”. It houses Multilane’s high-speed instrument set and it hard docks directly to an Advantest V93000 from the bottom side. The customer’s loadboard hard docks to the top side of the twinning frame.
