

AUGUST NEWSLETTER "Beirut"

The tragedy that has struck **Lebanon** this past week has caused widespread damage across the capital city **Beirut**, resulting in hundreds of lives lost, thousands injured, and hundreds of thousands more without homes or basic supplies.

While our Lebanon team and facilities were unharmed, many of our team's relatives and friends are dealing with injuries and significant property damage.

Despite all that is happening, MultiLane has fully resumed operations and our backlog shipments remain on schedule.

The kind words and wishes we have received have been much appreciated; we are grateful to be part of this tight-knit, world-wide tech community.

Please find below a list of vetted organizations that directly support the people of Lebanon.
