ThunderBERT Webinar a new era in Bit Error Rate Testing

Join us on Thursday, October 22nd to learn about ThunderBERT, MultiLane's new and improved BERT platform User Interface.

The combination of advanced analysis capabilities, such as real hardware FEC, and an unprecedented ease-of-use graphical user interface, will aid in the acceleration and adoption of new and challenging interconnect technologies.

Get more details and sign up [here](#).

We planned two different time slots to allow you to join wherever you are in the world. Even if you cannot join live, register now and we'll send you the link to the recorded webinar to watch at your convenience.

Growing Presence in Europe

MultiLane is growing its presence in Europe and is pleased to become part of EPIC, a powerful network of Photonics companies.

MultiLane on Social Media

Don't forget to follow us on all our social media channels to stay up to date on many of the great things happening here!
